

Research for health
in humanitarian crises

| **elrha**

R2HC Research Impact Toolkit (RIT) online learning hub

Information for current grantees

elrha

What is it?

- A series of mini-courses on key topics related to research impact:
 - Setting goals
 - Identifying, analysing and prioritising stakeholders
 - Defining your own role and positioning in context
 - Setting change outcomes for stakeholders
 - Communication of research to humanitarian stakeholders
 - Managing, monitoring and evaluating engagement
- Comes with activity sheets, quizzes and exercises– to embed learning and help you to get concrete outputs from your engagement with the course
- A variety of content formats– visual, video and text
- Each mini-course corresponds to the Stakeholder Engagement Strategy template provided by R2HC– finish the course and you can complete your Strategy

Who is it for?

- Currently open for access to all R2HC-funded study team partners
- May be especially of interest to PIs, Research Uptake Focal Points who will lead development of a Stakeholder Engagement Strategy

How do I access the course?

- Free, easy to access and no obligation– just sign up and explore modules as you need, according to what you're interested in learning!
